At Laboratorio SYS we ensure the environmental control of the activities we carry out in our facilities, which are equipped with renewable energy systems. We follow programmes to achieve zero emissions and become completely free of plastic. We only use natural raw materials, with the maximum respect for manufacturing processes and waste treatment. Our greatest responsibility is to our environment and our planet.

We are located in Torrent (Valencia), with 5,000m2 of facilities equipped with the latest technology. In addition to the factory, our offices, a modern laboratory and an R+D+I department are located there, where the most appropriate products are designed to meet the latest market needs. We are constantly developing new product lines that maintain our demanding standards of quality and innovation.

We are committed to offering the highest level of quality, always exceeding the most rigorous controls and promoting the continuous improvement of the production process. We transfer this quality to our facilities, to our team of professionals who are 100% involved and committed to the company. Quality in everything we do, in our way of working and doing things.

Since 1991, at Laboratorio SYS we have been developing a wide range of products dedicated to the aroma of your home and any space, with the most select essences.

Fragrances made with natural aromas that create unique and unforgettable atmospheres: fresh, exotic, intense, citric, floral... Scents that make every home, car, office or any other place a unique space with its own personality.

To guarantee the maximum quality of our aromas, we only work with the best raw materials. And we offer them in the most varied formats: air freshener sprays, mikados, incense, diffusers, hangers or sachets.

*Our aim is to respond to the needs of our customers by **manufacturing the best products** and ahead of the latest market trends.*

*And always with our maximum **respect for the environment**.*

An aerial photograph of a blue car driving on a dirt road through a dense tropical forest. The road is light brown and curves through the lush greenery. Large, vibrant green ferns are prominent on both sides of the road. The car is a small, bright blue vehicle, positioned in the center of the frame.
